THE STORY OF LIGHT

THE SERENE REALM HAS GAINED A CERTAIN WEIGHT.

THE STATIC TEXTURE

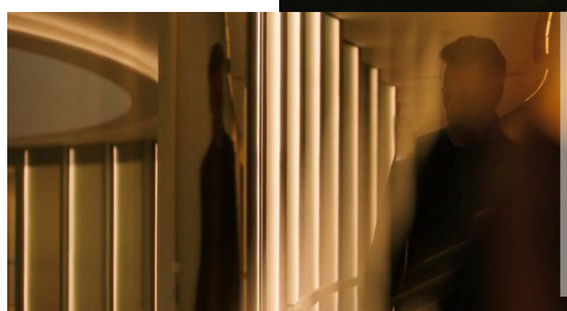

Liangguang lies between gold and light, representing a gentle, flowing, and textured brightness. It is not harsh or ostentatious; instead, it exists in a soft manner after being filtered by materials and guided by space.

The serene state is a carefully maintained inner order. It is not a void; rather, it is the calmness that emerges after all things have their proper places.

LUMINOUS IS WHEN LIGHT LEARNS TO WHISPER.

PERSISTENT PERCEPTION

LUMINOUS TRANQUILITY

DESIGN CONCEPT — VINTAGE — MODERN LUXURY

MODERN LUXURY IS EXPRESSED THROUGH BALANCE RATHER THAN EXCESS.

Modern luxury is expressed through balance rather than excess. Warm metallic tones, deep stone textures, and soft illumination interact to create a calm yet refined atmosphere. Each element reflects light differently, allowing the space to feel dynamic without losing composure—opulent, but never overwhelming.

THE ATMOSPHERE IS TRANQUIL, LUMINOUS, AND QUIETLY GRAND.

The atmosphere is tranquil, luminous, and quietly grand. Sculptural forms, layered lighting, and generous spatial composition evoke the feeling of a private sanctuary—refined, intimate, and timeless.

VANITY AREA

80011621
Bathroom Cabinet Set

Dimensions: 1600*560*595 mm
Materials: Multi-layer board + Sintered Stone bathroom vanity top with basin
Configuration: Two soft-close drawers
Surface Finish: Painted

LUMINOUS PRECISION.
QUIET OPULENCE.

A floating vanity with finely patterned fronts evokes the shimmer of falling light, pairing dark textures with warm metallic accents. The slim countertop and integrated basin maintain visual restraint, while the elongated backlit mirror casts a soft golden glow across the surface. Every detail balances richness with calm, expressing luxury through subtle radiance rather than excess.

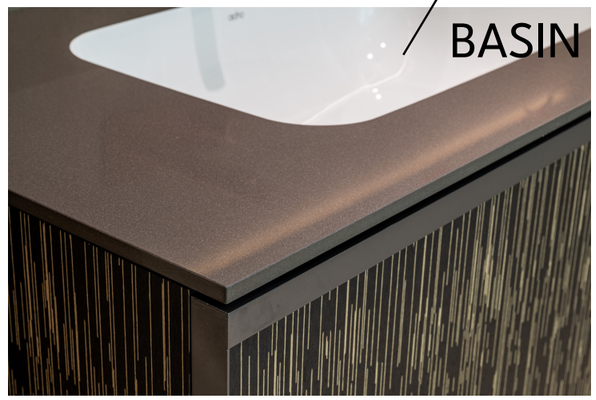

REFINED SURFACE.
FLOATING PRESENCE.

The wall-mounted cabinet combines sharp architectural lines with a textured façade that introduces subtle visual rhythm. Suspended above the floor, it reduces visual weight while reinforcing a sense of precision and control. The design balances decorative richness with disciplined geometry, allowing the cabinet to feel both expressive and composed.

COUNTERTOP / BASIN

SEAMLESS INTEGRATION. LASTING PURITY.

The sintered stone countertop meets the ceramic basin with precise, seamless integration, emphasizing durability and visual continuity. Smooth transitions eliminate visual interruption while enhancing ease of maintenance. The pairing combines technical performance with refined tactility, creating a surface that feels both resilient and elegant.

STORAGE SYSTEM

HIDDEN ORDER. VISIBLE EASE.

Inside, meticulously organized drawers reveal a system designed for clarity and efficiency. Modular compartments keep everyday essentials precisely arranged, transforming storage into a seamless extension of the design. Function becomes intuitive, allowing daily rituals to unfold with quiet ease.

WALL-MOUNTED FAUCET

MINIMAL FORM.
PRECISE CONTROL.

A wall-mounted faucet in brushed rose gold finish extends horizontally with restrained elegance, freeing the countertop while reinforcing architectural clarity. The cylindrical control handle introduces tactile precision, allowing smooth adjustment of water flow and temperature. Every detail reflects a balance between mechanical performance and visual refinement.

BATHTUB AREA

QUIET IMMERSION. EFFORTLESS CALM.

A freestanding acrylic bathtub anchors the space with sculptural softness, surrounded by diffused natural light that creates a serene bathing atmosphere. Elevated on a dark stone platform, the composition balances solidity and lightness while emphasizing relaxation over display.

60011711
Bathtub

Dimensions: 1700 × 750 × 580 mm
Material: Acrylic
Configuration: Chrome-plated brass drain + stainless steel support frame

Natural light pours through the space, gently rippling the water surface. The mood becomes calm as the light enters through the windows and reflects on the water, creating a shimmering light effect. The flowing shadows are cast on the ceiling and walls. This is not only a space for bathing but also a spiritual haven.

LIGHT THAT WHISPERS. SILENCE THAT SPEAKS.

FLOOR-STANDING TUB FILLER

PRECISION IN FORM. GRACE IN MOTION.

The floor-standing tub filler rises with architectural clarity, finished in brushed rose gold that introduces warmth without excess. An integrated hand shower extends functionality while maintaining visual purity, creating a fixture that feels both engineered and quietly elegant.

FRAMED PRECISION. SEAMLESS STRENGTH.

A minimalist glass enclosure is defined by slim structural lines and precise engineering, offering both openness and stability. The brushed rose gold finish introduces warmth to the transparent volume, while clean joints and flush hardware emphasize craftsmanship at every touchpoint. Every detail is designed to be visually quiet yet structurally assured.

SHOWER / SYSTEM

QUIET PRECISION.
SEAMLESS CONTROL.

A concealed shower system in brushed rose gold finish integrates seamlessly into the wall, leaving only refined geometry and tactile controls in view. The overhead rain shower delivers a gentle, even cascade, while the minimalist hand shower offers precise flexibility. A slim control panel with knurled lever and push selectors ensures intuitive operation, combining technical sophistication with visual calm.

LUXURY IS NOT WHAT YOU SEE—IT IS WHAT YOU FEEL WHEN THE MATERIALS FALL SILENT AND LIGHT REMAINS.

Materiality here is not merely surface—it is the medium through which light becomes atmosphere.

Brushed rose gold traces the space with warmth, its fine lines catching light like the first glow of dusk—soft, diffused, never glaring. Deep stone textures anchor the composition with a quiet, primordial presence; their natural veins unfold like distant landscapes, grounding the space in timeless solidity. Glass, framed in slender precision, dissolves boundaries while maintaining structure, allowing light to pass through without losing definition.

Together, these materials do not compete—they converse. Each one knows when to reflect, when to absorb, when to recede, and when to emerge. The result is a tactile harmony where touch confirms what the eye perceives: a space built not for display, but for dwelling.
